**Founded in 2019, Mariposario Jardín Mágico is the only butterfly sanctuary in Bahía de Banderas.**

**Our project tackles key biodiversity challenges, including climate change, pesticide use, deforestation, pollution, wildlife conservation, endangered species protection, and urban development.**

**We have identified 192 species of local butterflies and are licensed to reproduce 37 species.**

**We offer educational programs and guided tours to raise awareness about pollinators' role in ecosystems. Through workshops and tours, we teach the butterfly life cycle and its importance in biodiversity.**
